

Price Estimates for Equipment and Supplies

The table below lists some of the estimated costs you may incur when starting your infusion clinic. Some of these supplies are optional, but they are included here so you can get a better grasp of the many different ways to design your unique infusion clinic inventory. Be sure to review the [financial planning spreadsheets](#) to see how you may recover your startup costs as your infusion offerings increase and your patient base grows.

Financial Planning Spreadsheets

Equipment	Quantity	Approximate Cost (2012)	Cost Adjusted for Inflation (2017)
Infusion chair (<i>optional</i>)	1	\$1,500	\$1,591.52
Infusion pump (<i>also optional; can be leased if you do not wish to purchase outright</i>)	1	\$1,700	\$1,803.73
